Honorable Mayor and Members of the City Council **City of Gaastra**PO Box 218
Gaastra, Michigan 49927

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the **City of Gaastra**, as of and for the year ended June 30, 2007, which collectively comprise the City's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Gaastra** at June 30, 2007, and the respective changes in financial position and cash flows thereof for the fiscal year ended, in conformity with generally accepted accounting principles in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2007 on our consideration of the **City of Gaastra**'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with the report in considering the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages 8 through 20 are not a required part of the basic financial statements but are supplemental information required by the *Governmental Accounting Standards Board* and by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of the inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **City of Gaastra**'s basic financial statements. The introductory section and the combining and individual non-major fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the **City of Gaastra**, State of Michigan. The combining and individual non-major fund financial statements and the Schedule of Expenditures of Federal Awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

The management of the **City of Gaastra** provides this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2007. As readers, you are encouraged to read this discussion and analysis in conjunction with the City's financial statement information included in this report.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The financial section of this report includes management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements are comprised of three components:

1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements

The government-wide financial statements are designed to provide the readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Government-wide financial statements (Continued)

Both of the government-wide financial statements distinguish functions of the City that are mainly supported by taxes and intergovernmental revenues (government activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, sanitation and health, culture and recreation, and community development. The business-type activities of the City include Water and Sewer Utilities.

Fund Financial Statements

The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. In the basic financial statements, the emphasis of the fund financial statements is on major funds. All of the funds of the City can be divided into three categories: *governmental funds, proprietary funds, and fiduciary funds*.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spend-able resources, as well as on balances of spend-able resources available at the end of the fiscal year. This information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. In order to provide the reader with information to better understand the long-term impact of the government's near-term financing decisions, a reconciliation between the government-wide financial statements and the fund financial statements is included as part of the basic financial statements.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Fund Financial Statements (Continued)

Governmental Funds (Continued)

The City maintains four governmental funds. Information is presented separately in the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and major street fund, both of which are considered major funds. All other governmental funds are presented in aggregate. Individual fund data for each fund is presented separately in the "Other Supplementary Information" section of this report.

The City adopts an annual budget for its general and special revenue funds. To demonstrate compliance with this budget, a budgetary comparison statement has been provided for the general and major street funds, and is included in the "Required Supplementary Information" section of this document.

Proprietary Funds

Proprietary funds provide services for which the City charges customers a fee. The City has only one type of proprietary fund - enterprise funds. The enterprise funds of the City are used to report the same functions as the business-type activities in the government-wide financial statements. The Water Utility and Sewer Utility funds are presented separately in both the government-wide financial statements and the fund financial statements. Enterprise funds are used to account for operations very similar to business enterprises, where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The fiduciary fund for the City is the tax collection fund. Fiduciary funds are not included in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. These funds are presented separately in the fund financial statements section of the basic financial statements.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Notes to the Financial Statements

Notes to the financial statements are included in the basic financial statements and provide additional information that is essential for a full understanding of the data provided in the government-wide and the fund financial statements.

Supplementary Information

<u>Required supplementary information</u> follows the basic financial statements, and includes budgetary comparison schedules for the General Fund and the City's major special revenue funds as presented in the governmental fund financial statements.

Separate combining financial statements for non-major governmental funds are also included in the <u>Other Supplementary Information</u> section of this document.

Government-wide Financial Analysis

In time, net assets of a governmental entity may serve as a useful indicator of the government's financial position. In the case of the City, assets exceeded liabilities by \$1,110,123 at June 30.

By far, the largest portion of the City's net assets is its investment in capital assets (land, buildings, infrastructure, machinery, and equipment), less any outstanding debt related to acquiring the asset. These capital assets are used to provide services to citizens and are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. At June 30, 2007, the City reported \$ 914,703 in net assets invested in capital assets net of related debt.

External restrictions of the City's net assets represent resources subject to existing external obligations or programmatic control on future use. The remaining balance of unrestricted net assets of \$ 113,377 may be used to meet the government's ongoing obligations to citizens and creditors.

Governmental Activities

Property taxes and other tax revenues comprise \$ 59,670 approximately 24 percent of total governmental revenues.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Governmental Activities (Continued)

Operating grants and contributions for governmental activities ended the fiscal year at \$68,777, primarily attributable to the State of Michigan's Act 51 funding for major and local streets. At fiscal year end, the City reported \$49,695 in grants and contributions not restricted for specific programs. This amount was due entirely to the State of Michigan's state sales tax distribution.

The City expensed \$ 261,600 on governmental programs and services. The largest expense category was incurred for general government, which totaled \$ 111,691 or approximately 43 percent of total expenses. Streets and highway expenses were \$ 55,716 or 22 percent of the total, and public works expenses were \$35,902, or 14 percent of the total. Public safety expenses were attributed to management's continuing commitment to preserve the lives and property of the residents of the City, with current year expenses of \$10,073.

Business-type Activities

Business-type activities increased the City's net assets by \$51,791. Charges for services for the Water and Sewer activities for the year ended were \$68,433 and \$70,807, respectively.

Total expenses for the Water and Sewer Fund activities for the year ended were \$ 126,527 and \$ 56,463, respectively.

Financial Analysis of the Governmental Funds

As previously noted, the City uses fund accounting to ensure and demonstrate compliance with finance-related requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spend-able resources. This information is useful in assessing the City's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Financial Analysis of the Governmental Funds (Continued)

Governmental Funds (Continued)

The City's governmental funds reported combined ending fund balances of \$130,637, of which \$17,260 is reserved and the remaining \$113,377 is available for spending at the government's discretion.

The City's primary governmental fund is its general fund. There are no reservations in the general fund's fund balance.

On the budgetary basis of accounting, the City ended the fiscal year with general fund revenues considerably more than the original budgetary projection, but just slightly higher than the final amended budget. Total expenditures were slightly higher than the final projection, but substantially more than the original budget. And, at fiscal year end, the fund balance was lower than either the original or the final amended budget projections.

Major street fund revenues were very close to both the original and the final amended budgets. Expenditures were very close to the final amended budget, which was somewhat higher than the original appropriation.

Financial Analysis of the Governmental Funds (Continued)

Governmental Funds (Continued)

General fund financial and budgetary highlights of the fiscal year include:

- * Use of money and property exceeded <u>original</u> budgetary projections by \$ 521.
- * Charges for services were lower than the final amended budget by \$70.
- * Distributions from the State of Michigan of \$52423 were very close to the final amended budget of \$53101.
- * Expenditures in total for the general fund were \$202,081, lower than the final budgetary appropriation of \$208,624, but substantially more than the original budget estimate of \$189,525.

Major Street Fund financial and budgetary highlights of the fiscal year include:

- * State of Michigan Act 51 funding for the major streets was very close to the original and final budgeted amounts; coming in at \$51,640 compared to the original budget of \$49,840 and the final budgeted amount of \$51,776.
- * Total expenditures were \$45,915, lower than budgeted in the original budget by \$3,925 and \$1,207 lower than the final amended budget.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Net assets of the Water and Sewer Funds at year-end were \$677,682 and \$199,764, respectively. The growth or change in net assets for the Water and Sewer Funds were \$(29,129) and \$80,920, respectively. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

P.O. Box 218 GAASTRA, MICHIGAN 49927 (906) 265-2141

Accomplishments and Priorities

The major capital events during the current fiscal year included:

- Painting of the water tower.
- Rebuilding of Nowicki Road for the safety and well-being of the public.
- Improvements to the baseball/soccer field making it more user friendly while improving the looks of the City.

Major priorities for the 2007-08 fiscal year include:

- Pavement of some local streets.
- Ground breaking for the Bike Path.
- Sale of more City land to boost our population.

Economic Factors

Despite the future economic uncertainty, the City's guiding principles for the upcoming fiscal year are to continue building and maintaining strong neighborhoods, provide good social and cultural conditions that support healthy families, remain a safe and clean city, and invest in opportunities that promote economic growth and financial capacity.

Requests for information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to:

NOTES TO THE FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting methods and procedures adopted by the **City of Gaastra**, Gaastra, Michigan, conform to generally accepted accounting principles as applicable to governmental entities. The following is a summary of the more significant policies:

THE FINANCIAL REPORTING ENTITY

The City was organized in 1949 and covers an area of 2 square miles. The City operates under an elected board of five (5) commissioners and provides services to its approximately 376 residents in many areas including law enforcement, general administration and water and sewer services. In accordance with the provisions of GASB 14, certain other governmental organizations are not considered to be part of the City entity for financial reporting purposes. The criteria established by GASB 14 for determining the various governmental organizations to be included in the reporting entity's financial statements include separation of electing governing body and legal status, and fiscal independence.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

THE FINANCIAL REPORTING ENTITY

(Continued)

On this basis, the financial statements of certain other governmental organizations are not included in the financial statements of the City.

BLENDED COMPONENT UNITS

A blended component unit is a legally separate entity from the local unit, but is so intertwined with the unit that it is, in substance, the same as the local governmental unit.

A basic strategy of GASB 14 is to present financial information for component units separately from the financial information for the primary government. This is achieved through the discrete presentation method. However, in the case of blended component units, GASB believes that it would be more appropriate to use the blending method to incorporate the financial information of a component unit into the reporting entity's financial statements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BLENDED COMPONENT UNITS (Continued)

When the blending method is used, transactions and balances of a component unit are merged with similar transactions and balances of the primary government so that there is no way to identify which balances relate to the component unit and which relate to the primary government.

There are no blended component units to be included in the financial statements of the **City of Gaastra**.

JOINT VENTURES

A joint venture is a legal entity or other organization that results from a contractual agreement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or an ongoing financial responsibility.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2007

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

JOINT VENTURES (Continued)

An ongoing financial responsibility is defined as a participating government's obligation in some manner for debts or the joint venture's existence depends on continued funding by the participating government.

West Iron County Sewer Authority

The **City of Gaastra** has entered into an agreement with several governmental entities in Iron County to form the *West Iron County Sewer Authority*.

The Authority was established in August 1972 under the provisions of Act 233, Public Acts of Michigan, 1955, as amended, and was organized to provide sewer service to the cities of Iron River, Stambaugh, Caspian, Gaastra, and a portion of Iron River Township.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

JOINT VENTURES (Continued)

West Iron County Sewer Authority (Continued)

The first grant applications were filed in 1982. Two members from each participating municipality are appointed by their respective governmental entities to serve on the Board of Trustees of the *West Iron County Sewer Authority*.

Pursuant to the terms of the Authority's Sewer Use Ordinance adopted by the Authority and each Constituent Municipality, the Authority bills each Constituent Municipality monthly based on such Constituent Municipality's percentage of Equal Dwelling Units ("EDUs") to the total number of EDUs for the entire System. Billing to end users is done by each Constituent Municipality using its own billing system and methodology.

Under the EDU system, the Authority adopts a preliminary budget in April of each year for its next fiscal year beginning the following July 01.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

JOINT VENTURES (Continued)

West Iron County Sewer Authority (Continued)

This preliminary budget is presented to each Constituent Municipality for review and consideration in its budgeting process.

Prior to adopting its final budget in June of each year for the fiscal year beginning the following July 01, the Authority holds a public hearing with respect to the preliminary budget. The preliminary and final budgets calculate EDU charges to cover both operation, maintenance, and replacement ("OMR") expenses and debt retirement expenses.

Included in OMR charges are funds for future replacements of all major plant equipment. During the fiscal year ended June 30, 2007, the **City of Gaastra** paid to the Authority fees totaling \$ 29,344 for OMR and debt retirement.

Caspian-Gaastra Fire Authority

The Caspian-Gaastra Fire Authority was formed to organize, equip, and manage a fire department to provide fire protection for the land areas within the boundaries of the Cities of Caspian and Gaastra. The Caspian-Gaastra Fire Authority was formed on February 01, 2002, and, as provided by statute, operates under a Governing Board which consists of 2 members appointed by the governing body of each representative municipality, plus one additional member selected by the Board who shall be a resident of a participating municipality.

The Authority is funded by assessments from the participating municipalities. During the fiscal year ended June 30, 2007, the City paid an assessment of \$6,267 to the Authority for fire protection.

BASIS OF PRESENTATION

The City follows GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. GASB Statement No. 34 adds the following components to the financial statements:

Management's Discussion and Analysis

A narrative introduction and analytical overview of the government's financial activities. This analysis is similar to analysis the private sector provides in their annual reports.

Government-wide financial statements

These include financial statements prepared using full accrual accounting for all of the government's activities.

Government-wide financial statements (Continued)

This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure, including bridges and roads, and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter. The government-wide statements include the Statement Net Assets and the Statement of Program Activities.

Statement of Net Assets

The Statement of Net Assets displays the financial position of the primary government (government and business-type activities) and its discretely presented component units.

Statement of Net Assets (Continued)

Governments report all capital assets, including infrastructure, in the government-wide Statement of Net Assets and report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net assets of a government are broken down into three categories - 1) invested in capital assets, net of related debt; 2) reserved; and 3) unreserved.

Statement of Program Activities

The statement of activities reports expenses and revenues in a format that focuses on the cost of the government's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Budgetary comparison schedules

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. The City and many other governments revise their original budgets over the course of the year for a variety of reasons.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The reporting model focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by category).

The criteria applied for major fund qualification is as follows:

- 1) Total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of an individual fund are at least 10% of the corresponding total for a fund type.
- 2) Total assets, liabilities, revenues, or expenditures/expenses (excluding extraordinary items) of an individual fund are at least 5% of the corresponding total for the total of all governmental and enterprise funds combined.

Assets, or any other elements taken one a time would have to pass both the 10% test and the 5% test for the fund to be required to be considered a major fund.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type. In the government-wide Statement of Net Assets, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Both governmental-wide and fund financial statements presentations provide valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the financial information. The City generally uses restricted assets first for expenses incurred for which both restricted and unrestricted assets are available.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety, public works, health and welfare, etc.) that are otherwise being supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions.

Taxes and other items not properly included among program revenues are reported as general revenues. The City does not allocate indirect expenses. The operating grants and contributions column includes operating-specific and discretionary (either operating or capital) grants while the capital grants and contributions column reflects capital-specific grants.

In the fund financial statements, financial transactions and accounts of the City are organized in the basis of funds. The fund statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted.

The City's fiduciary funds are presented in the fund financial statements by type (pension, private purpose and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

GOVERNMENTAL FUNDS

These funds are those through which most governmental functions typically are financed.

The acquisition, use, and balances of the City's expendable financial resources and the related current liabilities, except those accounted for in the Proprietary Fund, are accounted for through the Governmental Funds. These funds are as follows:

General Fund

This fund is used for all financial transactions not accounted for in another fund, including the general operating expenditures of the local unit.

The City follows the State of Michigan Uniform Budgeting and Accounting Act for budgeting procedures. Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general and special revenue funds. Unexpended appropriations lapse at fiscal year-end.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. Prior to June 30 of the preceding fiscal year, the City prepares a budget for the next fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.

PROPERTY TAXES

The City's property taxes are levied and become a lien on each July 01st based on the taxable valuation of property located in the City as of the preceding December 31st.

These taxes are due on February 14th before they are added to the county delinquent tax rolls on March 01. The County of Iron purchases from the City delinquent real property taxes outstanding as of March 31st of each year.

Although the City ad valorem tax is levied and collectible on July 01st, it is the City's policy to recognize revenue from the current tax levy in the fiscal year for which they have been levied and become available. The 2006 taxable valuation of the City totaled \$ 3,107,840 on which ad valorem taxes levied consisted of 19.2004 mills for the City operating purposes.

NOTE D - PENSION PLAN

DESCRIPTION OF PLAN AND PLAN ASSETS

The **City of Gaastra** is an agent multiple-employer defined benefit pension plan with the Municipal Employees' Retirement System (MERS).

The system provides the following provisions: normal retirement, deferred retirement, service retirement allowance, disability retirement allowance, non-duty-connected death and postretirement adjustments to plan members and their beneficiaries.

The service requirement is computed using credited service at the time of termination of membership multiplied by the sum of 2.25 percent times the final average compensation (FAC) with a maximum benefit of 80 percent of FAC. The most recent period for which actuarial data was available was for the fiscal year ended December 31, 2006.

NOTE D – PENSION PLAN (CONTINUED)

DESCRIPTION OF PLAN AND PLAN ASSETS (Continued)

MERS was organized pursuant to Section 12a of Act#156, Public Acts of 1851 (MSA 5.333(a); MCLA 46.12(a), as amended, State of Michigan. MERS is regulated under Act No. 427 of the Public Acts of 1984, sections of which have been approved by the State Pension Commission.

MERS issues a publicly available financial report that includes financial statements and required supplementary information for the system.

That report may be obtained by writing to:

FUNDING POLICY

The obligation to contribute to and maintain the system for these employees was established by the **City of Gaastra**'s personnel policy, which does not require employees to contribute to the plan. The City is required to contribute at an actuarially determined rate; the current rate was 8.58 percent at December 31, 2006.

During the fiscal year ended June 30, 2007, the City's contributions totaling \$5,437 were made in accordance with the contribution requirement determined by an actuarial valuation of the plan as of December 31, 2006. The employer contribution rate has been determined based on the entry age normal funding method.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE D – PENSION PLAN (CONTINUED)

ANNUAL PENSION COST (Continued)

Under the entry age normal cost funding method, the total employer contribution is comprised of the normal cost plus the level annual percentage of payroll payment required to amortize the unfunded actuarial accrued liability over 30 years.

The employer normal cost is, for each employee, the level percentage of payroll contribution (from entry age to retirement) required to accumulate sufficient assets at the member's retirement to pay for his projected benefit.

Significant actuarial assumptions used include a long-term investment yield rate of 8 percent and annual salary increases of 4.5 percent based on age-related scale to reflect merit, longevity, and promotional salary increases.

NOTE F - ACCUMULATED FUND DEFICITS

At June 30, 2007, the City had no fund balance/retained earnings deficit in any fund.

NOTE G – RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the City.

NOTE K - RELATED PARTY TRANSACTIONS

Related parties exist when there is a relationship that offers the potential for transactions at less than arm's length, favorable treatment, or the ability to influence the outcome of events differently from that which might result in the absence of that relationship.

Financial statements must include disclosure of material related party transactions, other than compensation arrangements, expense allowances and similar items in the ordinary course of business. However, disclosure of transactions that are eliminated in the preparation of combined financial statements is not required in those statements.

On this basis, there were no related party transactions reported in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

NOTE L - SUBSEQUENT EVENTS

Subsequent events have a material effect on the financial statements which requires adjustment or disclosure. They relate to events that provide additional evidence with respect to conditions that existed at the date of the balance sheet and events that provide evidence with respect to conditions that did not exist at the date of the balance sheet but arose subsequent to that date.

At fiscal year ended June 30, 2007, there were no subsequent events that would have a significant affect on the City's operations.

NOTE M - COMMITMENTS AND CONTINGENCIES

The City participates in state and federal grant programs which are governed by various rules and regulations of the grantor agencies.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

JUNE 30, 2007

NOTE M - COMMITMENTS AND CONTINGENCIES (CONTINUED)

Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the City has not complied with the rules and regulations governing the grants, refunds of money received may be required and the collectibility of any related receivable at June 30, 2007 may be impaired. In the opinion of the City, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council City of Gaastra
PO Box 218
Gaastra, Michigan 49927

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund and the aggregate remaining fund information of the **Gaastra**, State of Michigan as of and for the year ended June 30, 2007, which collectively comprise the **City of Gaastra**, State of Michigan's basic financial statements, and have issued our report thereon dated November 13, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **City of Gaastra**, State of Michigan's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **City of Gaastra**, State of Michigan's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **City of Gaastra**, State of Michigan's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the **City of Gaastra**, State of Michigan's ability to initiate, authorize, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the **City of Gaastra**, State of Michigan's financial statements that is more than inconsequential will not be prevented or detected by the **City of Gaastra**, State of Michigan's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the **City of Gaastra**, State of Michigan's internal control.

Internal Control Over Financial Reporting (Continued)

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **City of Gaastra**, State of Michigan's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the **City of Gaastra**, State of Michigan, in a separate letter dated November 13, 2007.

This report is intended solely for the information and use of the management, City Council, and federal awarding agencies and pass-through entities, and it is not intended to be and should not be used by anyone other than these specified parties.

Honorable Mayor and Members of the City Council **City of Gaastra** P.O. Box 218 Gaastra, MI 49927

In planning and performing the audit of the financial statements of the **City of Gaastra**, we considered the City's internal control structure to plan the auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. Accordingly, we do not express an opinion on the effectiveness of the **City of Gaastra**, State of Michigan's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the **City of Gaastra**, State of Michigan's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the **City of Gaastra**'s financial statements that is more than inconsequential will not be prevented or detected by the **City of Gaastra**'s internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the **City of Gaastra**'s internal control.

During our audit, we noted certain matters involving the internal control structure and other operational matters that are presented for your consideration. They are divided into three categories: significant deficiencies, material weaknesses, and other matters.

BUDGETARY

Problem

During the fiscal years ended June 30, 2005, and June 30, 2006, the City incurred several expenditures which were in excess of amounts appropriated.

Recommendation

It was recommended that closer monitoring be done in regards to budgetary appropriations and expenditures.

Resolution

During the 2006-2007 fiscal year, there were two small over-expenditures as compared to the final amended budgetary appropriations.

Continued Recommendation

Closer monitoring is required in regards to budgetary appropriations and expenditures.

This letter does not affect our report dated November 13, 2007, on the financial statements of the **City of Gaastra**. We will review the status of these comments during our next audit engagement. Our comments and recommendations, which have been discussed with appropriate City officials, are intended to improve the internal control structure or result in other operating efficiencies. We will be pleased to discuss these comments in further detail at your convenience, or to assist you in implementing the recommendations.

It has been a pleasure working with the City officials, and we wish to express our appreciation for their cooperation and assistance during the audit engagement.

This communication is intended solely for the information and use of management, those charged with governance, and others within the organization and is not intended to be and should not be used by anyone other than these specified parties.

Yours very truly,
